Greece's Thanos Hotels & Resorts Introduces Amyth of Mykonos, A New Boutique Collection

Photos courtesy of Thanos Hotels & Resorts

Amyth of Mykonos is the first of a series of intimate, design-led boutique properties offering outstanding personalized service.

Cyprus' most-loved family-run luxury hotel group, Thanos Hotels & Resorts, announces the launch of a new boutique hotel brand, Amyth Hotels. The first property, Amyth of Mykonos, opened on April 14, 2023, expanding the Thanos Hotels group presence outside of Cyprus.

The first of a new collection of design-led boutique properties, defined by ultra-personalized, intimate service, Amyth of Mykonos offers a guest experience rooted in authentic hospitality and community-minded values, for which Thanos Hotels is renowned. Perched on a peaceful hilltop at the edge of the picturesque village of Agios Stefanos, Amyth of Mykonos is an all-suite boutique property, featuring 17 one-bedroom suites.

From luxurious garden suites with private terraces to sea-view suites with private pools, jetted hot tubs and panoramic ocean views, all rooms offer hideaway hedonism in paradise surroundings.

Located in the hills of Tourlos, the hotel is a stone's throw from Mykonos's iconic beach club scene and the sandy shores and shallow crystal waters of Agios Stefanos beach.

Guests are invited to enjoy seasonal homemade dishes at the Amyth Kouzina restaurant. The all-day menu bursts with the authentic flavors of the Mediterranean, serving fresh local seafood and a range of gluten-free, vegan and vegetarian options. An elegant swimming pool overlooks the Aegean Sea, alongside an outdoor gym. There is also a calming spa treatment room, where guests can benefit from ten different types of massage. Personal training, private yoga and signature care from local wellness experts are also available on demand for guests looking for a more wellbeing-focused getaway.
